After that

After a little relaxation, get in the car and turn right to Bajos Del Toro. Stop just after the first bridge, and walk 25 meters to the river. Just taste the water, but do not swallow, it tastes like lime soda, and the ingredients come straight from the Poás Volcano. At bridge number two, you will see the second blue river in the area.

Depending on the time left, drive back to your hotel, or after passing the third and last bridge before Bajos Del Toro, turn right to the national park Juan Castro Blanco. Drive for two kilometers until you reach the park rangers house, Minaet, and start walking. Either left or to the right. Chances to see wildlife here are high!

Back to the main road, turn right, check the little town of Bajos Del Toro, where you can have your lunch. Drive back downhill to the Catarata Del Toro and one kilometer after seeing a communication tower on your right-hand side. In front of it, you can park, take a quick look at the Hydroelectric plant Toro I. The big green pipe you have noticed before is thus for hydroelectric purposes. They use this water three times in three different plants.

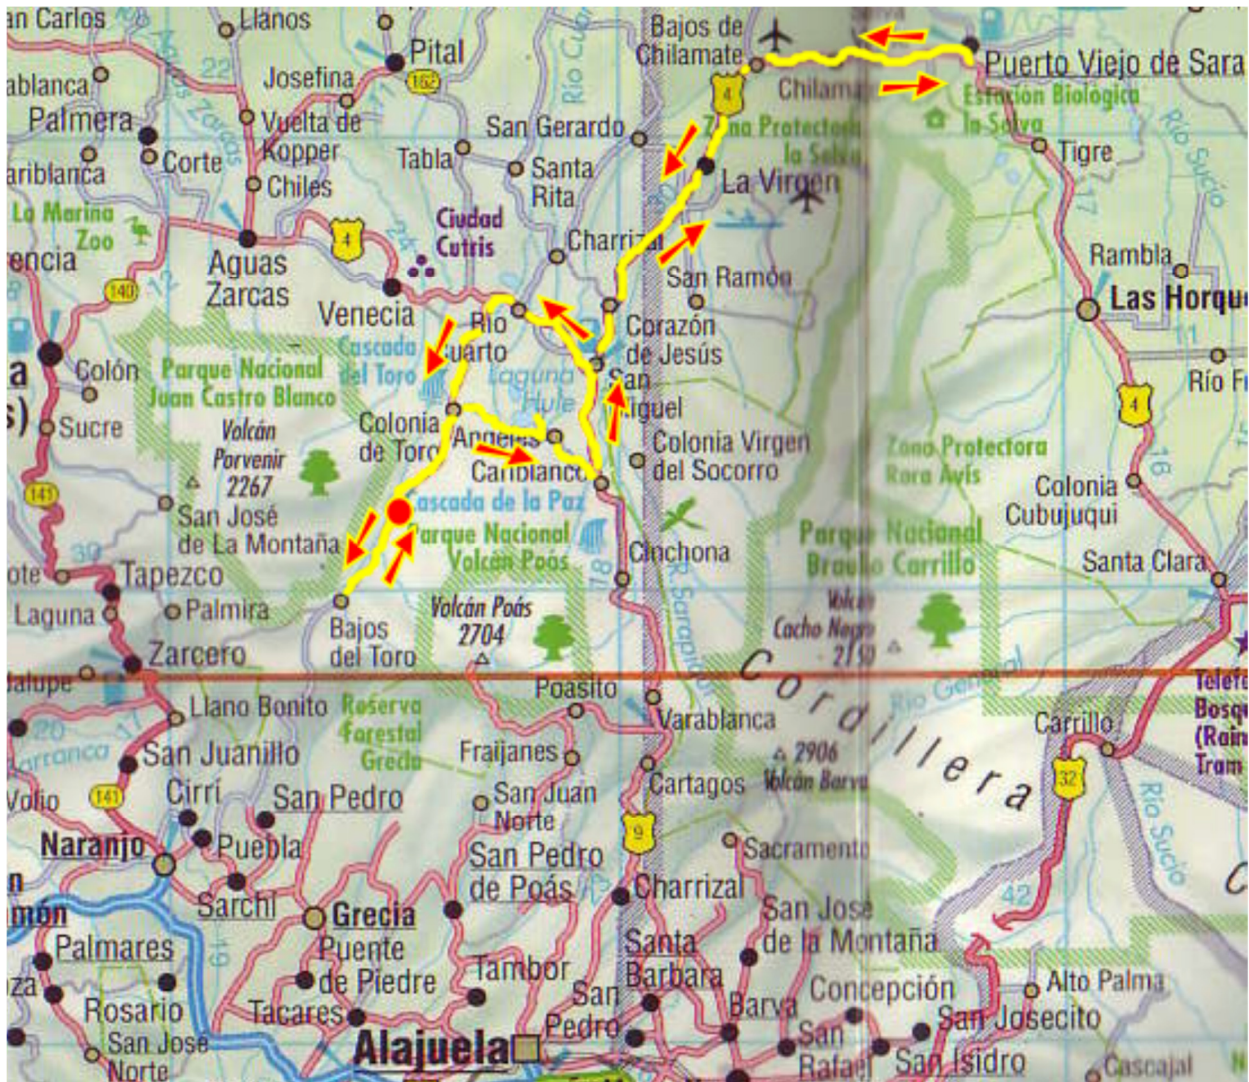

After this little stop, you continue driving downhill to La Colonia, and after passing the last bridge just before la Colonia, while you go up, make a 180° right turn in front of the church. Follow this gravel road, always take the left option, all the way to Laguna Hule. And at the blue school building turn left again, the road goes down and up with a little curve, keep going until you reach the restaurant 'Mirador Bosque Alegre' on your left-hand side. They offer food, drinks, and have amazing views.

Then, continue the same road that will lead you downhill to Rio Cuatro. After passing a bridge, or if you prefer you can pass through the river, turn left. Turn right at the next intersection, and this road will bring you back to the main road. Turn right to San Miquel and Sarapiquí and your hotel and relax!

Thank you for your interest and have a beautiful day,
